

## Exotic Car Policy

New for 2024, we are opening entry to the Fun Run for an “exotic” car category for cars of all model years. This is in addition to cars registered from 1990 and earlier. You do have the option of requesting being in the exotic category independent of year. There will be a new award category for best exotic car. Entries to be accepted based on approval by the Fun Run committee. Tentatively limited to 25 entries in the exotic car category. Cars in the exotic car category will be placed together at the car show. All cars in the show, including exotics, must be registered for operation on the street. Specify ‘exotic’ in the club affiliation on your application.

- No dedicated race cars.
- Registered kit cars will not be included in the exotic car category.
- No EVs or hybrids.
- No SUVs.

Registration for the exotic car category closes on July 15 or when full.

### Non-inclusive list of cars accepted in exotic car category:
